About Me

Computer Systems Engineering student at **UET Peshawar** with strong expertise in embedded systems, data analytics, and AI-driven applications. Passionate about designing scalable, efficient, and data-driven systems by integrating hardware and software. Adept at analytical problem-solving, modular system design, and continuous learning.

Education

Bachelor of Science in Computer Systems Engineering

University of Engineering and Technology (UET), Peshawar

2023 – Present

Technical Skills

Programming: Python, C, C++, Embedded C++

Data & Analytics: SQL, Power BI, Data Analysis, Business Intelligence

AI & ML: Machine Learning, Generative AI

Web & Tools: Flask, Web Scraping, Git

Hardware: ESP32, L298N Motor Driver, Embedded Systems

Projects

Vendor Performance Analytics

[GitHub](#)

End-to-end business intelligence project evaluating vendor profitability and inventory efficiency using SQL, Python, and Power BI.

- Identified underperforming brands and optimized purchasing strategies.
- Analyzed sales trends and inventory turnover metrics.

Dream Team Analyzer

AI-powered Flask web application providing performance insights via web scraping and analytical modeling.

- Implemented recommendation logic and visual dashboards.

SFML Arkanoid Game

Recreated the classic Arkanoid game using SFML and object-oriented principles.

- Designed collision detection, level progression, and scoring systems.

Soccer Robot (ESP32)

Bluetooth-controlled soccer robot built using ESP32 and L298N motor drivers.

- Developed embedded motor control and wireless communication logic.

SFML Music Player

Desktop music player with playlist and queue management using C and CSFML.

- Implemented modular playback and queue handling.

Professional Experience

AI Intern — MLSA UET Peshawar

Jun 2025 – Oct 2025

- Developed machine learning models for predictive analytics.
- Assisted in academic AI research and technical workshops.

Graphic Designing Intern — Cycarts

Aug 2024 – Oct 2024

- Created branding assets and user-centric design layouts.

Certifications

- Python for Data Science — IBM
- Machine Learning with Python — IBM
- Python with AI Mastery — Hadi e-Learning
- Generative AI Web App Development — Pak Angels / HEC
- Data Analytics & Business Intelligence — DigiSkills
- Introduction to Internet of Things — Coursera
- Big Data Foundations — IBM
- Art of Prompting — IBM
- AI for Everyone — Coursera
- Graphic Designing Mastery — Hadi e-Learning
